Material Thickness:

0.016 inches

Special Features:

Spot weld tongue end before hardening

Material:

Copper alloy

Material Specification:

Qq-c-533 federal specification single material response

Surface Treatment:

Nickel

Surface Treatment Specification:

Qq-n-290a, class 1, grade g, s.D. Federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A12700
