Cross Sectional Shape:

Recess, same shape as the periphery

Width:

2.130 inches

Flange Thickness:

0.020 inches

Edge Shape:

Band type

First Recess Inside Height:

0.120 inches

Body Thickness:

0.020 inches

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11, item t4 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type ii, cl2, black military specification single treatment response

Fsc Application Data:

Aircraft bombing fire control equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531c0

Mil-std (military Standard):

Mil-a-8625 spec.
