Cross Sectional Shape:

Flat

Width:

6.250 inches

Edge Shape:

Rectangle, no holes

Length:

12.500 inches

Body Thickness:

1.000 inches

Securing Device Type:

Special

Special Features:

Cover comes with 3 plugs each made from tool steel type 06 per qq-t-570 and each plug is coated with black oxide per mil-c-13294 class 1; 1 plug has head outside diameter of 1.82in; 1 plug has head outside diameter of 2.30in; last plug has head outside diameter of 5.25in; large plug held by 2 screws and smaller plugs held by 1 screw each, all 4 per ms16997-59; heat treat plugs per mil-h-6875 to rockwell c 45-50

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-200/8 t6511 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625 type 2, class 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0

Mil-std (military Standard):

Mil-a-8625 spec.
