Special Features:

Heat at 400 degrees c; harden at 850 degrees c; quench at 180 degrees c for 10 minutes in salt; wash, pickle, neutralize; hardened to rockwell c 40-45; one hole 2.06 mm dia; 5.5 mm from top to center of hole; 9.9 mm from center of hole to bottom; 4.47 mm width

Material:

Steel

Surface Treatment:

Phosphate manganese

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A10600
