**Special Features:**

Heat at 400 degrees c; harden at 850 degrees c; quench at 180 degrees c for 10 minutes in salt; wash, pickle, neutralize; hardened to rockwell c 40-45; one hole 2.06 mm dia; 5.5 mm from top to center of hole; 9.9 mm from center of hole to bottom; 4.47 mm width

**Material:**

Steel

**Surface Treatment:**

Phosphate manganese

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A10600
