Cross-sectional Shape:

Rectangular

Special Features:

Rubber vulcanized to create nuclear hardness critical characteristic

Material:

Plastic polyamide

Supplementary Features:

Length 3.020 in. ; width 2.000 in. ; thickness 0.580 ; 2 counter sunk mounting holes 0.190-32unf-2b; end item peacekeeper missile stage iii

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A08900
