Special Features:

Material is butadiene acrylonitrile which is 40 percent carbon reinforced nylon with tensile strength 30000 psi min.; flexure modulus 50000 psi min.; heat deflector temperature 485deg f min.; izod impact 10 ft lb per in. Min.; approx size 2.660 by 0.95 by 0.72 inches

Supplementary Features:

Functions as standoff for cable clamp no 2 on stage iii of peacekeeper missile, lgm-118a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A08900
