Cross Sectional Shape:

Flat

Hole Diameter:

Between 0.215 inches and 0.229 inches

Width:

Between 0.470 inches and 0.530 inches

Edge Shape:

Oval, multi holes

Length:

1.700 inches

Hole Quantity Along Length:

2

Distance Between Holes Along Length:

1.200 inches

Distance From First Hole Centerline To End Along Length:

Between 0.235 inches and 0.265 inches

Body Thickness:

Between 0.047 inches and 0.077 inches

Mounting Opening Shape Style:

Unthreaded hole

Material:

Magnesium alloy az31b

Material Specification:

Qq-m-31 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
