Cross Sectional Shape:

Flat

Width:

Between 0.540 inches and 0.580 inches

Mounting Hole Diameter:

0.352 inches

Plate Thickness:

0.0299 inches

Distance Between Mounting Hole Centers:

1.882 inches

Center Radius:

2.200 inches

Material:

Steel, sae 1010 or steel, sae 1012 or steel, sae 1013 or steel, sae 1015 or steel, sae 1016 or steel, sae 1017 or steel, sae 1018 or steel, sae 1019 or steel, sae 1020

Material:

Steel comp 1010 or steel comp 1012 or steel comp 1013 or steel comp 1015 or steel comp 1016 or steel comp 1017 or steel comp 1018 or steel comp 1019 or steel comp 1020

Material Specification:

Sae 1010 assn standard 1st material response and sae 1012 assn standard 2nd material response and sae 1013 assn standard 3rd material response and sae 1015 assn standard 4th material response and sae 1016 assn standard 5th material response and sae 1017 assn standard 6th material response and sae 1018 assn standard 7th material response and sae 1019 assn standard 8th material response and sae 1020 assn standard 9th material response

Style Designator:

Radius

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T319-c
