Feat

Special Features:

Between surface must be electrically conductive, no surface coatings; length: 0.230 in. And 0.260 in.; height: 0.280 in. And 0.305 in.; width: 0.670 in. And 0.690 in.; mounting hole diameter: 0.195 in. And 0.201 in.; lock leg length: 0.180 in. And 0.185 in.; lock leg width: 0.110 in. And 0.120 in.

Material:

Steel comp 630

Material Specification:

Ams 5643 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A09900
