**Criticality Code Justification:**

Feat

**Special Features:**

Between surface must be electrically conductive, no surface coatings; length: 0.230 in. And 0.260 in. ; height: 0.280 in. And 0.305 in. ; width: 0.670 in. And 0.690 in. ; mounting hole diameter: 0.195 in. And 0.201 in. ; lock leg length: 0.180 in. And 0.185 in. ; lock leg width: 0.110 in. And 0.120 in.

**Material:**

Steel comp 630

**Material Specification:**

Ams 5643 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A09900
