Inside Diameter:

3.000 inches

Overall Width:

1.000 inches

Material Thickness:

0.375 inches

End Application:

Generator set, diesel engine 6115014620290

Loop Inside Diameter:

3.000 inches

Material:

Steel comp 1010 saddle

Material Specification:

Astma575 assn standard 2nd material response bolt and astma569 assn standard 1st material response bolt

Surface Treatment Specification:

Astma366 assn standard all treatment responses saddle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A12700
