Cross Sectional Shape:

Flat

Width:

1.563 inches

Mounting Hole Diameter:

1.062 inches

Body Width:

1.188 inches

Distance Between Mounting Hole Centers:

Between 2.547 inches and 2.609 inches

Angle Between Ears In Deg:

36.0

Ear Width:

0.375 inches

Criticality Code Justification:

Zzzy

Material:

Nickel copper alloy

Material:

Nickel alloy

Style Designator:

Socket

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T319-c
