Thread Length:

0.750 inches left internal (includes through thread)

Width Between Flats:

Between 0.492 inches and 0.502 inches

Diameter:

0.625 inches

Length:

1.125 inches

Flatted Portion Length:

Between 0.250 inches and 0.310 inches

Cross-sectional Shape:

Round

Distance From End To Flatted Section:

0.440 inches

Material:

Steel comp 1008 or steel comp 1008 or steel comp 1008

Material Specification:

Astm a108 assn standard 1st material response or astm a576 assn standard 2nd material response or astm a575 assn standard 3rd material response

Surface Treatment:

Cadmium and chromate

Surface Treatment Specification:

Qq-p-416, type 2, class 3 federal specification single treatment response

Style Designator:

Left internal thread

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A08900
