Hole Diameter:

0.250 inches

Body Thickness:

0.032 inches

Securing Device Type:

Special

Mounting Opening Shape Style:

Unthreaded hole

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/5, temper o federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 1 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0

Mil-std (military Standard):

Mil-a-8625 spec.
