Mounting Hole Diameter:

Between 0.212 inches and 0.218 inches

Prebent Locking Feature Location:

One edge

Criticality Code Justification:

Feat

Special Features:

Item is not csi but has critical feature that must maintain a tight fit tolerance

Material:

Steel, mil-s-5059, type 301, hard

Material:

Steel comp 301

Material Specification:

Mil-s-5059, type 301, hard military specification single material response

Style Designator:

Radius

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T319-c

Mil-std (military Standard):

Mil-s-5059 spec.
