Hole Diameter:

0.257 inches

Overall Length:

3.530 inches

Design Type:

Claw engaging

Operation Method:

Lever on outside

Hole Quantity:

2

Special Features:

Clamp is capable of securing a 0.500 in. Diameter to 0.850 in. Diameter rod or tube

Material:

Steel comp 4130 spring

Material Specification:

Aisi assn standard single material response spring

Surface Treatment:

Cadmium spring

Surface Treatment Specification:

Qq-p-416, type 1, class 2 federal specification single treatment response spring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03100

Mil-std (military Standard):

Mil-a-8625 spec.
