Cross Sectional Shape:

Flat

Hole Diameter:

Between 0.168 inches and 0.174 inches

Bolt Circle Diameter:

3.125 inches

Edge Shape:

Round, three ears and holes

Body Radius:

1.500 inches

Inverted Radius:

0.500 inches

Ear Radius:

0.312 inches

Body Thickness:

0.032 inches

Securing Device Type:

Special

Mounting Opening Shape Style:

Unthreaded hole

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11-t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
