Cross Sectional Shape:

Flat

Width:

16.687 inches

Edge Shape:

Rectangle, no holes

Length:

10.687 inches

Corner Radius:

0.120 inches

Body Thickness:

0.187 inches

Securing Device Type:

Special

End Application:

P/n03-03596; tt-731/f

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11, t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
