Center To Center Distance Between Bolt Holes Along Width:

7.000 inches

Center To Center Distance Between Bolt Holes Along Length:

7.000 inches

Wheel Quantity:

1

Safe Operating Load Rating:

Between 2550.0 pounds and 4800.0 pounds

Material And Location:

Plastic, urethane tread

Wheel Type:

Built up

Wheel Diameter:

10.000 inches

Effective Height:

13.880 inches

Features Provided:

Brake lock

Plate Style:

Square-countersunk ends

Caster Plate Length:

8.380 inches

Caster Plate Width:

8.380 inches

Caster Plate Mounting Hole Diameter:

0.500 inches

Special Features:

Aluminum pedal foot brake, right hand

Style Designator:

Swivel offset

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A25600
