Center To Center Distance Between Bolt Holes Along Width:

7.000 inches

Center To Center Distance Between Bolt Holes Along Length:

9.750 inches

End Application:

P/n 68d291333-1001; f15e

Wheel Quantity:

2

Safe Operating Load Rating:

2080.0 pounds

Material And Location:

Steel

Surface Treatment And Location:

Cadmium plated or zinc plated

Wheel Type:

Pneumatic tire

Wheel Diameter:

14.880 inches

Effective Height:

19.938 inches

Features Provided:

Swivel lock

Plate Style:

Rectangular

Swivel Bearing Type:

Thrust

Tread Width:

4.000 inches

Caster Plate Length:

11.000 inches

Caster Plate Width:

9.000 inches

Caster Plate Mounting Hole Diameter:

0.654 inches

Special Features:

Aft side

Style Designator:

Swivel nonoffset

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A25600
