Hole Diameter:

Between 0.469 inches and 0.489 inches

Length:

Between 11.940 inches and 12.000 inches

Hole Quantity Along Length:

4

Distance Between Holes Along Length:

3.500 inches

Body Thickness:

0.500 inches

Securing Device Type:

Special

Mounting Opening Shape Style:

Unthreaded hole

Features Provided:

Handle for opening, lifting, closing, or the like

Material:

Steel

Material Specification:

Astm a514 gr a through d assn standard single material response

Surface Treatment:

Paint

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531c0
