Tube Outside Diameter For Which Designed:
2.160 inches
Overall Diameter:
Between 2.410 inches and 2.540 inches
Design Type:
Friction
Inside Diameter Length:
Between 4.320 inches and 4.450 inches
Round Cap Outside Surface Condition:
Smooth
Special Features:
Pile tape, 0.750 in. W and hook tape 0.750 in. W on inside
Material:
Plastic polyamide
Material Specification:
Mil-c-20696, type 2, class 3 military specification single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A539k0
Mil-std (military Standard):
Mil-c-20696 spec.
