End Application:

F-15

Special Features:

Cres steel ams 5347 w/final protective finish, passivating 5.4.1 of mil-std-171, casting notes state that castings & test brass shall be dbl soln ht treated and aged or homogenized w/soln ht treated and aged iaw mil-h-6875, aging temp to produce tensile strength 150 kpsi min, yeild strength @ 0.2% offset 130 kpsi min, elongation in 4d 10 percent min. Hardness 33-38 rockwell 'c'

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524v0

Mil-std (military Standard):

Mil-std-171 spec.
