Tube Outside Diameter For Which Designed:

1.220 inches

Overall Diameter:

2.000 inches

Design Type:

Friction

Inside Diameter Length:

1.000 inches

Round Cap Outside Surface Condition:

Smooth

Special Features:

Center hole at bade of cap 0.388 in. Dia

Material:

Aluminum alloy 6061

Material Specification:

Alloy 6061-t6 national specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A539k0
