Tube Outside Diameter For Which Designed:
1.220 inches
Overall Diameter:
2.000 inches
Design Type:
Friction
Inside Diameter Length:
1.000 inches
Round Cap Outside Surface Condition:
Smooth
Special Features:
Center hole at bade of cap 0.388 in. Dia
Material:
Aluminum alloy 6061
Material Specification:
Alloy 6061-t6 national specification single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A539k0
