Tube Outside Diameter For Which Designed:

2.640 inches

Overall Diameter:

3.250 inches

Design Type:

Friction

Inside Diameter Length:

0.890 inches

Round Cap Outside Surface Condition:

Ribbed

Special Features:

Incl one disk, nylon, l-p-410, cl 66; one lanyard, nylon mil-c-7515, type 2 or type 3, 9.000 in. Lg w/two end terminations, steel, qq-s-698 and zinc plated, astm b633; one rivet, steel, astm a545

Material:

Rubber

Material Specification:

Astm d2000, grade 5bc520a14e034f192 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A539k0
