Tube Outside Diameter For Which Designed:

0.250 inches

Overall Diameter:

0.480 inches

Design Type:

Friction

Connector Thread Size For Which Designed:

0.250 inches

Inside Diameter Length:

0.500 inches

Round Cap Outside Surface Condition:

Smooth

Special Features:

Conductive polyethylene, surface resistivity shall be less than 30000 ohms/sq in.; tensile strength 60000 psi min; color black

Material:

Plastic polyethylene

Material Specification:

L-p-390, type 1, class I federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A539k0
