Cross Sectional Shape:

Flat

Hole Diameter:

11.0 millimeters

Width:

38.0 millimeters

Edge Shape:

Rectangle, multi holes

Length:

242.0 millimeters

Hole Quantity Along Length:

2

Distance Between Holes Along Length:

212.0 millimeters

Distance From First Hole Centerline To End Along Length:

15.0 millimeters

Distance From First Hole Centerline To End Along Width:

19.0 millimeters

Body Thickness:

9.5 millimeters

Securing Device Type:

Special

Mounting Opening Shape Style:

Unthreaded hole

Material:

Steel

Surface Treatment:

Paint

Surface Treatment Specification:

S25-0429, caged 44940 mfr ref single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
