Hole Diameter:

0.688 inches

Outside Diameter:

6.500 inches

Securing Device Type:

Special

Mounting Opening Shape Style:

Unthreaded hole

Features Provided:

Sealing capability

Special Features:

One additional hole, 0.060 in. Dia

Material:

Nickel alloy

Material Specification:

Qq-n-281 alloy 400 cl a federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A531c0
