Overall Length:

4.350 inches

End Application:

Amraam lau128a

Design Type:

Claw engaging

Special Features:

Item heat treated iaw mil-h-6875, cl a, decarburization not permitted, hardness of heat treat matl shall be 280 ksi min, 2 tensile test bars req'd prior to surface trtmt, ams 7879 tungsten carbide-cobalt powder iaw ams 2437 w/thk 0.002 to 0.003 overspray permissible and 2 tensile test bars after test, bars are to be iaw e-8-81

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A03100
