Cross Sectional Shape:

Flat

Hole Diameter:

Between 0.115 inches and 0.125 inches

Outside Diameter:

2.140 inches

Edge Shape:

Round, multi holes

Body Thickness:

0.063 inches

Securing Device Type:

Special

Mounting Opening Shape Style:

Unthreaded hole

Special Features:

0.112-40 unc-2b thread through holes two places; 0.070 in. Through hole diameter four places; 0.116 in. Through hole diameter countersink 0.195 in. Min and 0.205 in. Maximum diameter by 82.0 degrees ten places; 0.200 in. Through hole diameter one place; 0.280 in. Slot w by 0.650 in. Slot lg

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
