Overall Diameter:

0.940 inches

Design Type:

Friction

Round Cap Outside Surface Condition:

Knurled

Special Features:

Includes 2 o rings; 13.000 in. Steel, comp 302 cable, astm a313 and 2 compression fittings, comp 304, qq-s-766

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-225/8, alloy 6061, t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A539k0
