End Application:

Ah-1w helo

Special Features:

Multiple angle bracket first leg measures 1.320 in. Lg., 3 bends in bracket are 0.380 r, following first bend, flat measures 2.360 in. Lg. To second bend, following second bend is flat measuring 1.500 in. Lg. Following thirrd bend is second leg measuring 2.010 in. Lg., bracket is 1.500 in. W., from center of slots to edge of bracket 0.770 in. Lg., from outside edge of bracket to center of slot 0.370 in. Lg., distance between two slots from center to center 0.750 in. W., lengthof bracket 4.370 in., depth 2.820 in., slots are located in second leg of bracket, slots located in first leg of bracket measure 0.416 in. Lg., 0.208 in. W., 0.800 in. Apart center to center, from center of slot to frontenter of bracket to side of bracket 0.350 in. Lg.

Material:

Aluminum alloy

Material Specification:

Qq-a-250/5 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
