Width:

0.400 inches

Material Thickness:

0.030 inches

Length:

0.638 inches

End Application:

100pw229 eng/core module

Loop Opening Width:

0.125 inches

Loop/holding Dimension:

0.125 inches

Special Features:

Coat w/alum-bronze only on certain areas

Material:

Nickel alloy

Fsc Application Data:

Combustion chamber liner

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03100
