Tube Outside Diameter For Which Designed:

Between 3.260 inches and 3.280 inches

Design Type:

Friction

Round Cap Outside Surface Condition:

Smooth

Special Features:

0.040 in. Thick cellulose sheet to be vacuum formed over disc, p/n 757955

Material:

Cellulose

Material Specification:

L-p-349, grade s2 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A539k0
