Width:

Between 5.185 inches and 5.215 inches

Thickness:

1.620 inches

Length:

Between 8.735 inches and 8.765 inches

Corner Radius:

0.050 inches

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 federal specification single material response

Surface Treatment:

Plastic epoxy and chromate

Shape:

Rectangular

Surface Treatment Specification:

Mil-p-23377 military specification 1st treatment response and mil-c-5541 military specification 2nd treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530d0

Mil-std (military Standard):

Mil-p-23377 spec.
