Overall Height:

Between 0.1410 inches and 0.1460 inches

First Step Diameter:

Between 1.3690 inches and 1.3740 inches

Bore Diameter:

Between 1.1300 inches and 1.1500 inches

Material Hardness Rating:

Between 31.0 international rubber hardness degree scale and 39.0 international rubber hardness degree scale

Design Type:

Solid

Material:

Steel, ams 5643

Material:

Steel comp 630

Material Specification:

Ams 5643 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T319-e
