Securing Device Type:
Threaded fastener
Mounting Opening Shape Style:
Threaded hole
End Application:
3-2 bomber airplane
Special Features:
128 holes; hole pattern not same as other dash numbers; heat treat per t6; hardness critical item and/or hardness critical process for the
nuclear effects of emp
Material:
Aluminum alloy 7075
Material Specification:
Qq-a-250/12 federal specification single material response
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
Yes - demil/mli
Filg:
A531c0
