Tube Outside Diameter For Which Designed:

2.533 inches

Overall Diameter:

3.880 inches

Design Type:

Friction

Inside Diameter Length:

0.750 inches

Round Cap Outside Surface Condition:

Smooth

Special Features:

4 mtg holes 0.219 countertbor to 0.359 in. On bolt circle of 3.306 in.

Material:

Steel comp 1010

Material Specification:

Astm 576, comp 1010 assn standard single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 2, class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A539k0
