Cross Sectional Shape:

Flat w/open center

Edge Shape:

Rectangle, multi holes

Body Thickness:

0.025 inches

Securing Device Type:

Turnlock fastener

End Application:

Pacer dawn

Special Features:

The g2 part number has a support, pc board and 4 small added holes

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A531c0
