Overall Length:

5.000 inches

Overall Height:

4.225 inches

Overall Width:

2.800 inches

End Application:

Pacer dawn

Special Features:

Bracket assembly with circular hole 3.625 in. Min, 3.627 in. Maximum inside diameter

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-225/9 federal specification single material response or qq-a-250/12 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A042a0
