Overall Length:

9.690 inches

Overall Height:

0.300 inches

Material Thickness:

0.042 inches

Mounting Hole Diameter:

Between 0.214 inches and 0.224 inches

End Application:

Automated surface observing system (asos) weather radar

Hole Quantity:

2

Distance Between Hole Centers:

9.250 inches

Surface Treatment:

Zinc chromate primer

Surface Treatment Specification:

Tt-p-1757, type 1, color y federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A042a0
