Width:

3.2000 inches

Thickness:

0.1250 inches

Length:

4.0000 inches

Features Provided:

Aperture and centrally located raised surface and raised surface

Special Features:

There are six holes 0.166 in. Dia. Through 0.230 in. Dia. X 82csk fs; four holes with dia. 0.188 in.; four holes 0.112-40 unc-2b thru

Material:

Aluminum alloy 5052

Material Specification:

Qq-a-250/8 federal specification single material response

Surface Treatment:

Chromate

Shape:

Rectangular

Surface Treatment Specification:

Mil-c-5541, cl 1a military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530d0

Mil-std (military Standard):

Mil-c-5541 spec.
