Cross Sectional Shape:

Flat

Width:

247.6 millimeters

Edge Shape:

Rectangle, no holes

Length:

247.7 millimeters

Corner Radius:

12.7 millimeters

Body Thickness:

2.7 millimeters

Securing Device Type:

Special

Special Features:

The item is secured by two bracket, angle under part number 12420477-002

Material:

Steel

Material Specification:

Astm-a-607 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
