**End Application:**

F100pw229 engine

**Special Features:**

Double angle on first leg end in clip bend fashion with thickness of 0.062 and three mounting holes

**Material:**

Nickel alloy 625

**Material Specification:**

Ams5599 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A042a0
