Center To Center Distance Between Bolt Holes Along Width:

3.3750 inches

Center To Center Distance Between Bolt Holes Along Length:

5.2500 inches

Wheel Quantity:

1

Material And Location:

Plastic, phenolic laminate, cloth base tire

Wheel Type:

Solid

Wheel Diameter:

6.0000 inches

Effective Height:

8.5000 inches

Features Provided:

Swivel lock

Plate Style:

Rectangular

Wheel Bearing Type:

Roller

Tread Width:

0.5000 inches

Caster Plate Length:

6.5000 inches

Caster Plate Width:

4.0000 inches

Caster Plate Mounting Hole Diameter:

0.5000 inches

Special Features:

There is single side bracket and four position swivel lock

Style Designator:

Swivel offset

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A25600
