Cross Sectional Shape:

Flat

Width:

Between 38.940 inches and 38.970 inches

Edge Shape:

Rectangle, no holes

Length:

Between 71.190 inches and 71.220 inches

Body Thickness:

2.080 inches

Securing Device Type:

Special

Features Provided:

Observation facility

Material:

Aluminum alloy 5052

Material Specification:

Qq-a-250/8 h34 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
