**Cross Sectional Shape:**

Flat

**Width:**

Between 38.940 inches and 38.970 inches

**Edge Shape:**

Rectangle, no holes

**Length:**

Between 71.190 inches and 71.220 inches

**Body Thickness:**

2.080 inches

**Securing Device Type:**

Special

**Features Provided:**

Observation facility

**Material:**

Aluminum alloy 5052

**Material Specification:**

Qq-a-250/8 h34 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A531c0
