Width:

49.0000 inches

Edge Shape:

Rectangle, no holes

Length:

17.0000 inches

Securing Device Type:

Special

Material:

Aluminum alloy 5083 or aluminum alloy 5086 or aluminum alloy 5052

Material Specification:

Qq-a-250/6 federal specification single material response or qq-a-250/7 federal specification single material response or qq-a-250/8 federal specification single material response or qq-a-200/4 federal specification single material response or qq-a-200/5 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
